

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 16 through 31, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **December 16 through 31, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Start chillers and VAV heaters earlier in the morning so you can reduce the call for energy during the higher demand hours.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

CEQA Cases

Case Name (No.):	Deltakeeper v. Oakdale Irrigation District (C035745)
Court, Filing Date:	Cal. App. 3 rd , 12/26/2001
Source:	2001 Daily Journal D.A.R. 13323
Summary of Ruling:	Named parties have interest in California Environmental Quality Act litigation sufficient to protect interests of parties not joined.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (December 16th – 31st, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: United States Army Corps of Engineers
Contact: Beth Dyer
Telephone: (415) 977-8451
E-mail: Edyer@spd.usace.army.mil
Address: 333 Market Street, San Francisco, CA 94105-2197
Description: On December 10, 2001, the Corps of Engineers issued a public notice announcing LSA Associates' application to amend existing permit 17587N96 in order to increase the discharge of material from 400 cubic yards to approximately 900 cubic yards of material and increase fill from 0.58 acre to 0.72 acre of jurisdictional wetlands and 0.05 acre of other waters.
Comment By: January 9, 2002

Agency: United States Army Corps of Engineers
Contact: Jim Delorey
Telephone: (415) 977-8441
E-mail: James.r.delorey@spd.usace.army.mil
Address: 333 Market Street, San Francisco, CA 94105-2197
Description: The City of Pittsburg has applied for a ten-year Department of the Army permit to maintenance dredge the Pittsburg Marina in Pittsburg, Contra Costa County, California. The purpose of the proposed dredging is to return the marina to its originally permitted depth to allow safe navigational clearance for recreational boats.
Comment By: January 25, 2002

Agency: United States Army Corps of Engineers
Contact: Bob Smith
Telephone: (415) 977-8450
E-mail: Rsmith@spd.usace.army.mil
Address: 333 Market Street, San Francisco, CA 94105-2197
Description: The Monterey County Resource Conservation District has applied for a Department of the Army regional permit authorizing the discharge of fill to restore eroded stream

banks and construct sediment and water control structures to enhance natural aquatic systems in the Salinas River watershed in Monterey County, California.

Comment By: January 10, 2002

Agency: United States Department of the Interior Fish and Wildlife Service

Contact: Marcy Haworth

Telephone: (775) 861-6300

E-mail: Fw1renoskipper@rl.fws.gov

Address: Nevada Fish and Wildlife Office, 1340 Financial Boulevard, Suite 234, Reno, NV 89502-7147

Description: The United States Fish and Wildlife Service emergency listed the Carson Wandering Skipper as endangered on November 29, 2001.

Comment By: N/A

Agency: Federal Energy Regulatory Commission

Contact: Dr. Frank Winchell

Telephone: (202) 219-2865

E-mail: N/A

Address: 888 First Street, N.E., Washington, DC 20426

Description: In a letter dated December 12, 2001, the Commission authorized the Sacramento Municipal Utility District to initiate consultation with the California State Historic Preservation Officer, appropriate Native American tribes, and other consulting parties, pursuant to the regulations implementing Section 106 of the National Historic Preservation Act.

Comment By: N/A

Agency: Federal Energy Regulatory Commission

2001101089	New County Government Center; ED00-228 (C000018G) San Luis Obispo County San Luis Obispo--San Luis Obispo The County of San Luis Obispo is proposing to demolish two existing County-owned buildings and construct a new 97,000 square foot, 4-story county government facility with two levels of below ground parking on an approximate 43,330 square foot parcel.	NOD	
2001102046	Range Resource Management Plan East Bay Municipal Utility District --Alameda, Contra Costa The purpose of the Range Resource Management Plan (RRMP) is to identify and implement rangeland management goals that meet the watershed management objectives outlined in the East Bay Watershed Master Plan (EBWMP). The RRMP provides guidance to implement range management activities that meet EBWMP. These objectives include, but are not limited to, establishing Best Management Practices for managing range lands to protect and enhance water quality, biodiversity, and other natural resources while meeting objectives for fire and fuels management; defining the procedures for monitoring range condition, water quality, and both sensitive species and habitat; defining the format for Allotment Management Plans, which include rangeland improvements.	NOD	
2001102099	Peterson Coastal Development Permit and Special Permit (CDP-01-11/SP-01-11) for Removal Fire Hazard Trees Within 150 Feet of Existing Residence Humboldt County Planning Department Trinidad--Humboldt Timber removal of potential fire hazard trees surrounding an existing single family residence. The applicant proposes a California Department of Forestry and Fire Protection Fire Hazard Trees within 150 feet of a Residence Exemption. The applicant proposes to remove approximately 9 redwood trees within a 0.5 acre area. Applicant proposes to burn residual slash material on-site pending approval by local air quality and fire protection jurisdictions. The proposed project will generate approximately 2 truck loads of timber. The 2.5 acre parcel is served with on-site sewage disposal system and on-site water.	NOD	
2001102117	City of Vacaville Housing Element Revision Vacaville, City of Vacaville--Solano The project consists of a revision to the City of Vacaville Housing Element, as mandated by State Law. The Draft Housing Element contains policies and programs for the development, conservation and rehabilitation of housing between January 1999 and June 2006.	NOD

<u>Documents Received on Monday, December 17, 2001</u>			
2001111057	ND ENG 2001-01, Fresno River Parkway Trail Extension, Oakhurst Madera County --Madera The project consists of an extension and continuation of the Fresno River Parkway Trail in the unincorporated community of Oakhurst. The proposed trail extension and continuation would consist of a maximum 8 foot wide pathway located adjacent to the Fresno River, China Creek and Lewis Creek.	NOD	
2001111058	ND ENG 2001-02, Madera Ranchos Vernal Pool Acquisition-Madera Ranchos Madera County --Madera The project site is located east of the Madera Irrigation District canal at the alignment of Road 38 and the extension of Avenue 12 1/4 (Madera Ranchos), Madera County (APN: 049-650-017).	NOD	
2001112015	Bridlewood Recycled Water Tank Replacement El Dorado Irrigation District --El Dorado This project involves construction of a 150-foot diameter, 40-foot high 4-million gallon (mg) steel recycled water tank on a vacant 10-acre parcel at 1,380 feet above mean sea level. The new tank would replace an existing 0.3 mg concrete recycled water tank, which will be demolished and removed. Site access would be via existing roads upgraded with an all-weather surface. Generally, project construction will involve clearing the construction area of vegetation and grading the site to provide a level surface. The tank will be located on the site to avoid tree removal. Construction will commence in spring 2002, and will involve excavators, graders, cranes, and other typical construction equipment. Approximately 250 lineal feet of ductile iron pipe (DIP) will connect the new tank to the existing recycled water distribution system. The tank is expected to be completed in fall 2002.	NOD	
2001129012	Sun Valley Oaks Sewer and Stormwater Outfall Construction Fish & Game #2 Roseville--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-379 Pursuant to Section 1603 of the Fish and Game Code to the project applicant, Forecast Homes.	NOD	
2001128256	Replacement of Median Barrier at Three Locations Caltrans #2 --Shasta, Siskiyou Replacement of median barrier at three locations. Disposal of removed Type 60C concrete barrier debris at an optional site located to the right of PM 45.	NOE	
2001128257	Russian River Bank Stabilization Fish & Game #3 --Sonoma Rock rip-rap will be placed over an approximately 100-foot length of river bank, the voids filled with river gravel and soil, and the rock covered with soil anchored with jute netting; all heavy equipment will work only from the top of the bank. Willow cuttings will be planted on three foot centers and maintained for the first year. Issuance of Streambed Alteration Agreement Number R3-2001-0648 pursuant to	NOE

2001128336	Cathey Road Fuel Reduction Parks and Recreation, Department of --Humboldt Thin fuels using handtools and chainsaws 200 feet to either side of 0.4 mile of Cathey Road and 0.2 mile along another unnamed road. Fuel treatment will involve trimming and removing brush to provide an emergency exit in case of wildfire. Brush will be chipped, burned on site, or hauled away.	NOE	
2001128337	Central Heating Plant Expansion University of California, Santa Cruz --Santa Cruz The proposed building would provide space for two new 700 BHP boilers and for an existing BHP boiler now located in the Central Heating Plant. The structure would be constructed with a metal frame and with painted, patterned metal siding. The foundation would be a concrete structural mat or structural grid system. The building would be unheated and naturally ventilated. It would be provided with a fire suppression (sprinkler) and alarm system, and with electricity, natural gas, and water connections. Water would be provided for a service sink with very low water demand (estimated to be approximately 3,000 gallons per year). No hazardous materials would be stored or used in the building.	NOE

2000081077	Village West Commercial Shopping Center Visalia, City of Visalia--Tulare The project involves the development of thirty acres of vacant land for approximately 167,289 sf of commercial retail uses at the southwest corner of State Highway 198 and Akers Road including an extension of Cypress Avenue to the west.	EIR	01/31/2002
2001102040	CSU California Maritime Academy Master Plan Maritime Academy, California Vallejo--Solano The Master Plan, the proposed project, is a comprehensive plan for the overall expansion and physical development of the California Maritime Academy (CMA) to support future Campus population growth and the addition of academic curriculum, as identified in the Master Plan. The Master Plan is intended to be the foundation upon which future capital improvements and development decisions will be based. The CMA campus is located on Morrow Cove, northwest of the Carquinez Bridge, approximately 2 1/2 miles southeast of downtown Vallejo. Currently, the Campus encompasses 81.75 acres. As part of the Master Plan, three parcels of land, totaling approximately 6 acres, on Maritime Academy Drive adjacent to the entrance of the Campus, are designated as a future acquisition site for facility development. The Master Plan also includes the demolition of several existing buildings; the renovation, expansion, and adaptive reuse of other existing buildings; as well as the development and placement of new buildings. 	Approximately 190,989 gross square feet will be constructed as part of implementation of the Master Plan. A number of existing buildings on Campus will remain in their present state and will not undergo any substantial renovation or alteration. Supplemental development, such as parking, access roads, and infrastructure upgrades, is also included in the Master Plan to support projected development and growth.		
2001121086	Refrigerated Shipping Container Repair and Service Facility Los Angeles City Planning Department Long Beach--Los Angeles Expansion of an existing Refrigerated Shipping Container Repair and Service Facility to support the local Maritime Industry.	EIR	01/31/2002
1990020114	University of California, Riverside 2002 Long Range Development Plan (LRDP) Draft EIR University of California, Regents of the Riverside--Riverside The University of California, Riverside proposes to update the 1990 LRDP previously adopted by The Regents that anticipated 18,090 students by 2005-06 and a need for 10.1 million gross square feet of facilities. The update will address anticipated growth in enrollment by approximately 12,300 students in 2015 over the current enrollment of 12,700 (2000-01). The LRDP EIR will address the environmental impacts this growth will have as the campus moves from 4.5 million existing gross square feet of development to 12.5 million gross sf to accommodate the increase in students. The LRDP EIR will incorporate existing LRDP mitigation measures as appropriate as well as develop new measures to mitigate the increase in enrollment.	NOP	01/16/2002
2001121082	Hector Godinez Fundamental High School Santa Ana Unified School District Santa Ana--Orange The Santa Ana Unified School District proposes to develop a new high school in the City of Santa Ana. The school would provide facilities for approximately 2,500 students and contains 68 classrooms, 28 labs and approximately 186,150 square feet of program area on a 25.71 acre site. The high school would be a fundamental high school with an emphasis on science and technology. Facilities would include administrative areas, a media center, food service areas, an amphitheater, a gymnasium, a pool (at a future date) and a performing arts center. The high school recreational facilities and parking structure are proposed for joint use with the City of Santa Ana. A draft Joint Use Agreement with the City of Santa Ana stipulates that the City would have joint use of the gymnasium, future swimming pool, restroom/locker facilities, performing arts facility, sports fields and courts, and parking structure.	NOP	01/16/2002
2001121083	North City Water Reclamation System Project San Diego, City of San Diego--San Diego Expansion of recycled water distribution capabilities in the Northern Service Area is an integral part of the City's plan to meet their water reuse goals. Plans to expand transportation and distribution of recycled water from NCWTP are divided into three phases. Phase I would expand the distribution system generally north of	NOP	01/16/2002

	MCAS Miramar to Black Mountain Ranch and the Olivehain Water District. Phase II would extend west from Black Mountain Road toward Carmel Valley, and Phase III would extend the system east of I-15 into Carmel Mountain. Facilities associated with Phase I are currently in the design and engineering process and there is therefore more detail available regarding the exact locations of the proposed pipeline, as well as the reservoir and pump station. Phase II and III are planned for future construction, and remain conceptual in nature. Accordingly, facilities associated with Phase I will be evaluated at a project level within the Program EIR, while facilities proposed as part of Phases II and III will be evaluated at a program level and subject to future CEQA evaluation.		
2001121084	Hesperia Water District Water and Sewer Master Plan Project Hesperia Water District Hesperia--San Bernardino The Hesperia Water District is considering the adoption of an updated Water Master Plan and an updated Sewer Master Plan for its service area. These master plans identify the system improvements that are projected to be required to provide adequate water and sewer service to customers of the District through the year 2025.	NOP	01/16/2002
2001121087	Del Amo Boulevard Torrance, City of Torrance--Los Angeles The proposed project entails the extension of Del Amo Boulevard (a distance of 0.7 mile) between Crenshaw Boulevard and Maple Avenue, and widening the existing road between Maple Avenue and Prairie Avenue. The extension/widening of Del Amo Boulevard would include the construction of a new four lane roadway with optional bicycle lanes in each direction, construction of a new bridge over the Burlington Northern Santa Fe (BNSF) railroad tracks, realignment of a portion of a branch railroad, construction of mechanically stabilized earth (MSE) retaining walls, drainage improvements, relocation of affected utilities, and relocation/reconstruction of affected off-site facilities.	NOP	01/16/2002
2001122068	Proposed Marriott/Fairfield Inn & Suites Alameda County Hayward--Alameda The proposed Marriott/Fairfield Inn & Suites (the "Proposed Hotel") is to be a 141-room hotel with surface parking on 2.45 acres in the northeast quadrant of Arbor Avenue and A Street in unincorporated Alameda County. The proposed Hotel is to have (4) stories with a building footprint of approximately 18,000 square feet. The proposed building height to the roof eaves is approximately 42 feet, above which there is no conditioned or habitable space. The building height to the main roof ridge is 60 feet, and the maximum building height is 66 feet. The Proposed Hotel site is in the sphere of influence of the City of Hayward. A Street is a city arterial street. Existing commercial uses along the north and south sides of A Street generally are in the incorporated city limit, except McDonald's which is in unincorporated Alameda County. The Proposed Hotel Site is just east of the I-880 interchange with A Street. A Street has a raised median divider from the diagonal ramps (off- and on-ramps from and to I-880) to Hathaway Avenue. A possible element that may be added to the Project Description is a shared driveway to be shared by the Proposed Hotel and the McDonald's restaurant on A	NOP	01/16/2002

	through an extraction and desalination process. The proposed project would increase the use of Mission Basin groundwater through expansion of extraction and treatment, as well as through seasonal recharge and long-term water storage in the basin. Groundwater would be recharged with surface water, including local rainfall runoff, reclaimed water, and imported water during winter when excess conveyance capacity in the existing system would be available. During dry periods, the project would provide approximately 1,094 acre feet (af) of treated water a year for up to three consecutive years. Groundwater storage and recovery would require construction of a number of interconnected facilities to permit management of groundwater within the basin.		
2000121084	Two Year Time Extension for Map TM-28728 with Grading Deviations Riverside, Planning Department, City of Riverside--Riverside On January 22, 1998, the City Planning Commission approved TM-28728 involving the subdivision of 152 acres into 66 single family residential lots and five open space lots implementing the Planned Residential Development, PD-001-912, approved in 1994 and partially constructed under TM-23027 (SCH#97121096, 2000121084&93112050). The Map, TM-28728, is broken into four phases. The phases are broken down as follows: Phase 1 Lots 1-35, 80-86, portion of 89 and 92. This phase recorded on July 16, 1998. Phase 2 Lots 63-76, 90 and a portion of 89. Phase 3 Lots 36-46, 77-79, portion of 88, 91 and 92 (new open space lot proposed under this time extension). Phase 4 Lots 47-62, 87 and a portion of 88. The map expired on July 22, 2000, and the applicant submitted a timely request for a time extension prior to the expiration date. However, staff noted that since the adoption of the new Grading Ordinance the project would require grading deviations which should be addressed under the time extension. Grading for this tract was originally approved in 1994 by the Environmental Protection Commission (EPC) under EP-016-912. To address the grading deviations staff required updated biological reports for the property which due to the required protocol for some of the species took a considerable amount of time to prepare. Therefore, the subject of this initial study involves a two-year time extension for TM-28728 and grading deviations for 27 residential lots and a portion of five streets lots. The proposed grading deviations are to allow the building pad and/or manufactured slopes for lots 39-41, 43-49, 57-66, 68, 77 and 78 and portions of street lots C, E, G, H and I to encroach into the limits of the Alessandro Arroyo. Additional grading deviations may be necessary for proposed pad sizes in excess of the limits set by the Grading Ordinance.	Neg	01/17/2002
2001121090	Conditional Use Permit No. 01-200 Los Angeles County Department of Regional Planning --Los Angeles A Conditional Use Permit to authorize the establishment and use of a 2,500 sf second residential unit, to be built over a proposed two car garage, and to be utilized as an accessory use to an existing 2,500 residence with two-car garage. 2001122081	MTBE (Methyl Tertiary Butyl Ether) Phase-Out Project Bay Area Air Quality Management District Benicia--Solano The Refinery produces motor vehicle gasoline and other petroleum products. The Project involves modifications to the Refinery to enable it to produce gasoline that complies with the Phase 3 Reformulated Gasoline regulations promulgated by the California Air Resources Board. Among other things, these regulations prohibit the use of MTBE in gasoline in California effective December 31, 2002. The Project includes modifications to existing processing facilities, including modifications to (i) the naphtha recycle process, (ii) the dimersol unit, (iii) the cat naphtha splitter tower, (iv) the light cat naphtha hydrofiner, and (v) the MTBE/alkylation tower. In addition, equipment will be converted or installed to allow the Refinery to use ethanol as an oxygenate in gasoline. In particular, one tank currently used to store methanol will be used to store ethanol, blending skids will be installed at the marketing terminal to allow in-line blending of ethanol and gasoline blendstock, and a new pipeline will be built to connect the ethanol storage tank to the blending skids. The modifications described herein will use some existing tanks, piping, and truck loading system, and will also use new facilities, including pumps, instrumentation, vessel internal hardware, and piping, all of which will be integrated into the existing Refinery. Additionally, some processing equipment at the existing MTBE Production Unit will be removed from service, emptied and preserved for potential future use.	NOP	01/18/2002
2001121094	Fletcher Drive Elementary School Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project would include the construction of a permanent two-story building with 20 classrooms, a library, two boys' restrooms, two girls' restrooms, two faculty restrooms, and other appurtenant facilities totaling 30,500 square feet of new construction. The proposed action would also add 36 parking spaces beneath the footprint of the proposed building addition while removing the existing 11 surface parking spaces on-site. The project would result in the removal of 17 existing portable classrooms. The proposed addition project would also require the temporary closure of approximately 250 feet of Estara Avenue from Marguerite Street toward Fletcher Drive. This temporary closure would provide safety for children to reach interim classroom housing located on the Irving Middle School campus baseball field during construction of the addition project. 1998061084	Agricultural Issues General Plan Amendment and Implementing Rezone GPA 96-03 San Diego County Alpine, Bonsall, Dehesa, Harbison Canyon, Jamul, Dulzura, ...--San Diego The Superior Court of San Diego County issued a judgement as a result of a lawsuit brought against the County (Save Our Forest and Ranchlands v. County of San Diego) that successfully challenged the adoption of GPA 94-01 that would have set a minimum parcel size of eight acres for the (20) designated lands. The court directed the County to bring the Regional Land Use, Open Space, and Conservation elements of the General Plan into conformance with State law and to prepare appropriate environmental documentation pursuant to the Government Code Section 65759. A Draft Environmental Impact Report (DEIR) was circulated for a 45-day public review period on February 18, 1999. Revisions to that DEIR were made to the following resource areas: noise, transportation and circulation, and the water quality section of water resources. This revised DEIR was circulated for a 45-day public review period on October 21, 1999. Subsequent court action in a Supplemental Writ of Mandate (Superior Court County of San Diego case #676630) directed that revisions to the DEIR be completed for a biological, botanical and hydrological resources. Revisions to the DEIR have been completed for these resources. The revisions to the DEIR were circulated for a 45-day public review period beginning on August 3, 2001. Certain comments received during this comment period requested the County to further analyze the impact of potential future residential development. This supplement provides a refined analysis of the amount and location of potential residential development and analyzes the potential biological impacts associated with this residential development. 2001128358	Southern CA Gas Company Aliso Canyon Dripleg Site Fish & Game #5 --Los Angeles The Operator proposes to alter the streambed by excavating and abandoning an old "dripleg" site. The dripleg structure is attached to Line 104 via a small diameter pipe that must be removed as part of the abandonment. The small pipe goes into the bank and attaches to Line 104. In order to remove the dripleg line from the Line 104, the pipeline must be exposed in the area. Impact area is 25 feet by 20 feet, which includes the previous disturbed area where the dripleg tank sits now and the existing roadway. No displaced sediment will be returned to the slope and the slope recontoured to existing conditions. Up to six individual mulefats shrubs will be removed. One willow tree will be pruned.	NOE	
2001128359	Repair of Flood Protection Structure at Camp Mendenhall/Munz Fish & Game #5 --Los Angeles The project consist of altering the streambed by removal of damaged cutoff wall and concrete slab, filling existing void beneath remaining slab with soil cement, reconstructing damaged wall and cutoff wall, and placing grouted riprap in the former footprint of the damaged slab to protect the old concrete slab and cutoff wall from future erosion. The replaced slope protection will be within or less than the existing footprint, so no additional permanent impacts will occur to the	NOE

	existing solids handling at the Weymouth Filtration Plant for maintenance purposes.		
2001128367	Lonely Gulch Disposal Site Restoration and New USFS Special Use Permit Caltrans #3 --El Dorado The Lonely Gulch disposal site has been used by Caltrans since 1981 under a Special Use Permit (SUP) from the United States Forest Service. The SUP expires at the end of 2001. A requirement of the SUP is that at its expiration the disposal site must be restored. A new SUP will be sought to allow the site to be used in the future as a construction staging location. If used for future staging projects, then the site will be restored after use.	NOE	
2001128368	Old Meyers Grade Disposal Site Restoration and New USFS Special Use Permit Caltrans #3 --El Dorado The Meyers disposal site lower level has been used for rock storage and the upper level for materials disposal for the last 20 years. A new SUP is being sought to continue these uses. Restoration, required by the existing SUP, will include revegetation, mulching, grading, sand trap installation and recontouring the lower level to divert water to a newly enlarged drainage basin. Once the upper level of the site has reached captivity it will be restored.	NOE	
2001128370	Bayview Disposal Site Restoration and New USFS Special Use Permit (SUP) Caltrans #3 --El Dorado Level 1 has been used for staging of highway construction projects, level 2 for disposal of slide materials and level 3 is the old borrow area, which is currently used for rock storage. A new SUP is being sought to use level 3 as a material storage site and level 2 as a rock storage site. Once level three has been filled with material it will be restored. Restoration of filled level 2 areas and level 1, except for the access road, will take place in the summer of 2002.	NOE

	40-0386). The subject portion of the roadway is a circulation element road planned to be a four-lane major arterial in the Rancho Penasquitos Community Plan and the Torrey Highlands Subarea IV EIR (LDR No. 93-0152). The Subarea IV EIR specified that a two-lane roadway segment was required to be in place prior to any development in Subarea IV and that this roadway was to be expanded to four lanes prior to generation of 50,000 average daily trips within the Subarea. This portion of the roadway would be 2,600 feet long with a 98-foot right-of-way (which includes 78 feet curb-to-curb and a 14-foot median). Subsequent to the completion of the EIR, this portion of Camino Ruiz was downgraded from a major arterial to a collector road. The design speed is 55 miles per hour (mph) and the posted speed would be 5 to 10 mph less. The project would include installation of a 16-inch water line and reclaimed water mains, a storm drain system and a gravity sewer line. Project implementation would require approval of a Site Development Permit (SDP).		
2001121110	Pacific Street Bridge Project Oceanside, City of Oceanside--San Diego The City of Oceanside proposes to replace the existing at-grade Pacific Street crossing of the San Luis Rey River with a permanent bridge. The two alternative bridge alignments would range from approximately 630 feet to 690 feet in length and be designed to safely pass the floodwaters of a 100-year storm. The project site is in the Coastal Zone and is bounded by the beach and the Pacific Ocean on the west, Harbor Drive South and the Oceanside Harbor and Marina on the north, an existing North County Transit District (NCTD) Railroad Bridge on the east, and the existing Pacific Street and the North Coast Village condominiums on the south. 2001128427	<p>Westley Tire Fire Site: Debris Pile Removal Action Workplan Toxic Substances Control, Department of --Stanislaus</p> <p>The project involves the removal of material located in debris piles remaining at the Westley Tire Fire Site (Site). The debris piles in question contain soil, ash, and tire debris that were involved in the fire. Debris Pile 2 was the site of the fire. Debris Piles 1, 3, 4, 6, and 7 were generated as part of the firefighting efforts. The contents of the debris piles are considered non-hazardous with the exception of the soil and ash found in the top 12 to 15 feet of Debris Pile 2 which has been classified as a California non-Resource Conservation and recovery Act (RCRA) hazardous waste. This classification is based on the presence of soluble zinc with concentrations in excess of the soluble threshold limit concentration of 250 milligrams per liter (mg/L). The tires mixed with the soil and ash are considered non-hazardous, but segregating them from the ash and soil has been determined to be impracticable. It is anticipated that 186,700 cubic yards of non-hazardous waste will be excavated and disposed of at a Class II landfill (most likely the Forward Landfill in Manteca, California). The 27,800 cubic yards of California non-RCRA hazardous waste will be excavated and transported to an appropriate hazardous waste (Class I) disposal facility. The removal action is anticipated to start in November/December of 2001, and take 50 to 55 weeks to complete. Following this removal action, further investigations will be conducted to determine the final remedial action for the site.</p>	NOE	
2001128428	<p>Emergency Amendment of Standards for Universal Waste Management Toxic Substances Control, Department of --</p> <p>Emergency regulation to amend the universal waste regulations to allow cathode ray tubes (CRTs), cathode ray tube containing devices, and cathode ray tube glass to be managed pursuant to the universal waste management requirements in lieu of the traditional hazardous waste requirements.</p>	NOE

2001121122	<p>Ojai Valley Inn and Spa Renovation and Expansion Ojai, City of Ojai--Ventura</p> <p>Applicant is proposing the renovation and additions of suites and rooms, dining/meeting facilities, recreational facilities and service facilities to the existing 215 acre Ojai Valley Inn and Spa. Total increase in room count is 95 units; accomplished by demolishing and reconstructing 28 sub-standard rooms and the construction of 95 new rooms for a total count of 313. Located in nine distinct complexes of one and two story Spanish style buildings, these new guest accommodations would be supported by other facilities including: a remodeled tennis club facility, 100-seat restaurant addition and convention space addition to the existing Topo Center Facility, 92-seat addition to the existing Oak Cafe, construction of a replacement bar (Demaret's Pub) providing seating for up to 51 people, replacement of the existing pro shop and locker rooms with a new facility, relocation of two swimming pools and a snack bar into a new facility, addition of a new parking lot, and the construction of a single story central service facility. The net construction of this project will be 125,323 square feet. Phasing of this project will be split into two main phases, the first including construction of new rooms near the spa and the construction of the new central services facility. The second phase includes relocating the main lobby to the spa in order to construct the new main part of the campus. In addition to construction, this project requires a zone change, development agreement, acquisition of an encroachment permit from CalTrans, tree removal permits, architectural review, and parcel map approval.</p>	NOP	01/28/2002

American Tower Corporation builds wireless communications towers and leases antenna space to carriers. The proposed project includes constructing a single 150-foot high metal lattice tower that would support 12 panel antennas, and up to five equipment shelters. All the facilities would be within the 10,000 square foot (80 feet x 125 feet) fenced lease area on the site. At build-out, four sets of antennas would be mounted at intervals between 104 feet and 150 feet on the tower. A lightening rod would extend an additional eight feet above the top of the 150-foot tower. No microwave antennas would be installed at the site. The project also includes minor grading to improve the existing access road, and installing underground electrical power lines within the roadbed from Timber Hills Drive up the direct road to the site. No propane tank or generator are proposed. Only one low wattage, manually controlled light would be allowed on each equipment shelter. The facility would not be continuously lighted.	Neg	
2001122097	68 Prospect Avenue Sausalito, City of Sausalito--Marin Construction of a single family home on a currently vacant lot with 50% slopes. The project includes approximately 500 cubic yards of grading and a retaining wall approximately 16 feet in height.	Neg	01/24/2002

2001122100	M.D. Murphy Anderson, City of Anderson--Shasta Applicant proposes a General Plan amendment, and Rezone of parcel from C-3 (Heavy Commercial to M-1 (Light-Industrial) to accommodate a light fabrication shop that includes welding. Site currently has an 11% site coverage that contains a 12,000 square foot metal building, that accommodates two businesses, Quality Trailer and J.C. Barry Manufacturing, and Powder Coating. Applicant proposed the expansion of current site to 23% coverage to accommdoate an additional 17,500 square feet building. Project site is not served by City of Anderson sewer or water.	Neg	01/24/2002
2001122101	One Year Time Extension for Use Permit No. UP-99-17 San Joaquin County Stockton--San Joaquin One-year time extension request for an approval use permit for an expansion of a landfill.	Neg	01/24/2002
2001122103	Hines Nurseries Winters North/Winters North Domestic Well Health Services, Department of --Solano Construction of a new water supply well and associated Chlorination system and two 900-gallon pressure tanks to provide safe, potable water for human consumption.	Neg	01/25/2002
2001124004	Bridge Replacement California Army National Guard San Luis Obispo--San Luis Obispo Order of the proposed project, the California Army National Guard would remove nine World War II era bridges at Camp San Luis Obispo and construct replacement bridges at six of the nine locations on Dairy Creek and Chorro Creek. Alternatives to the proposed project include limiting the number of bridges removed. Bridge removal would involve the use of conventional techniques and equipment to remove the bridges, timber pilings, concrete footings, concrete and wood debris, and other impediments to stream flow from the stream channels. The new bridges would be installed at the same locations as the existing bridges, would be made from prestressed concrete, and would be designed as freestanding spans with no footings or other material in the stream channel. The proposed project includes environmental protection measures for protection, dust control, and pollution prevention.	Neg	01/25/2002
1985101602	Sweetwater Reservoir Recreation Master Plan-Shoreline Fishing Program Draft Supplemental EIR San Diego County Chula Vista--San Diego The proposal is a shoreline fishing program to allow public recreation along 2.5 miles of the southwest shoreline of Sweetwater Reservoir. This project has been reduced from that analyzed in the 1987 Final EIR and consists of the following elements: annexation to Bonita-Sunnyside Fire Protection District; use of existing residence for office/concession/caretaker building; installation of sewer to that building; provisions of restrooms and 30 parking spaces adjacent to the building; use of the residential driveway for a project entrance; widening of the existing	NOD

2001102129	Beaver Lumber Company Remedial Action Plan Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Arcata--Humboldt Several different companies operated various types of wood processing at the site from the early 1920s to the present. Wood treatment chemicals that contained pentachlorophenol (PCP) and other contaminants were used between 1965 and 1983. The site is currently used for remanufacturing of wood products and a composting cottage industry. Site investigation revealed onsite soil, surface water, and groundwater contamination with PCP, tetrachlorophenol, and other breakdown products. The proposed project is a remedial action consisting of excavation and transportation of PCP contaminated soils to a permitted facility followed by the injection of hydrogen peroxide to facilitate the bioremediation of soils.	NOD	
2001111115	Orchard Road and Fairview Road Intersection Widening and Realignment San Benito County Hollister--San Benito The project involves the acquisition of additional right of way for, realignment of, and widening of Orchard Road, at the intersection of Orchard Road and Fairview Road. This is being done to safely accommodate Federal Service Transportation Assistance Act oversized and California legal trucks which are utilizing this intersection during agricultural harvesting periods. Currently, this intersection is only legally capable of supporting vehicle turning movements for smaller, passenger and farm vehicles accessing agricultural-use properties off of Orchard Road. As agricultural products, grown on properties in San Benito County fronting Orchard Road, find direct sale markets in nation-wide produce distribution and retail outlets, larger trucks are utilizing the roadways to access these agricultural properties. To insure that the turning radii at this intersection is legally adequate, the County will be acquiring further right of way for the intersection, and correspondingly realigning, and widening the road surface.	NOD	
2001112055	City of Rio Dell's Application to Appropriate Water by Permit and Petition Rio Dell, City of Rio Dell--Humboldt The purpose of this project is for the City of Rio Dell to obtain a water right to expand the City's allowable withdrawal from the Eel River in order to meet the long-term domestic water needs of the City. The project also seeks to relocate the existing point of diversion from a location across the Eel River to a location more easily accessible and less likely to be affected in a major flood, earthquake, or other natural disaster. A water right application (No. A031164) has been filed with the State Water Resources Control Board to expand the water right. In addition, the City filed a Petition for Change to add two points of diversion to their current License 10464 (Application 23196).	NOD

	37th Street on 8.69 acres. Also included in the proposal is a 142-space parking structure , an auditorium, a gymnasium and athletic fields. The school would accommodate a total enrollment of 1,521 students. A full-time staff of 97 teachers, support staff, and security would be required. The school would operate under the Concept 6 calendar, which is the calendar for the three-track program. Four buses per day would transport special education students. A 500-foot long students and bus drop-off zone is proposed at the main school entrance along Grand Avenue. The project would be constructed over a period of 21 months beginning in the first quarter of 2004.		
2001104006	East Los Angeles New High School No. 1A Los Angeles Unified School District --Los Angeles The proposed project involves construction of a high school that would serve approximately 1,300 students, grades 9-12 and teaching staff. The proposed school would include a three-story building and teaching facilities with approximately 200,700 sf, subterranean parking structure with 150 parking spaces for exclusive use by the school, and a 3-story parking structure with 170 parking spaces for shared-use with the public. The project also includes improvements to Belvedere Park's facilities, some of which for shared-use with the school and some for public's exclusive use.	EIR	02/11/2002
1981092112	Desert Gateway Development Project Subsequent Environmental Impact Report Palm Desert, City of Palm Desert--Riverside Application for development plan approval for community-scale shopping center. A development agreement in good standing currently exists between the owners and the City of Palm Desert. The project area consists of 70 +/- gross acres located at the southeast corner of Dinah Shore Drive (Tamarisk Row) and Monterey Avenue in Palm Desert. The total building area will be 700,169 +/- square feet, will include Sam's Club (150,000 sq ft), Wal-Mart (137,967 sq ft), a future Wal-Mart expansion of 74,702 sq ft, three other major retail outlets, and a variety of smaller retail outlets, shops and restaurants. The land-to-building ratio is approximately 3.35 to 1, with building coverage of approximately 22.96%. The plan also provides total parking of approximately 3,600 parking spaces, averaging 5.21 parking spaces per 1,000 sq ft overall. Primary access to property will be via Monterey Avenue, 35th Avenue and Market Way. Most service access to be taken from Market Way, which forms the eastern boundary of the project and runs parallel with Monterey Avenue.	NOP	01/25/2002
1997091078	Specific Planning Area (SPA) #4, Deer Springs & Harmony Grove Escondido, City of Escondido--San Diego Proposed modifications include expanding the Sphere of Influence and Specific Plan Area 4 (SPA 4) of the City of Escondido General Plan and to retract the Sphere of Influence for Deer Springs and Harmony Grove. Within SPA 4 area, two specific plans are proposed for development for 1,150 and 133 acres. Approximately 1,283 acres within SPA 4 are proposed to be developed with residential, resort and associated development.	NOP	01/25/2002

1999122078	<p>Pacifica Bowl Development Pacifica, City of Pacifica--San Mateo</p> <p>The City of Pacifica has received an application for the development of approximately 4.2 acres of vacant land with 43 residential housing units, an interior driveway and road network and a private park/open space area (Please see Figure 1, Site Location, Figure 2, Site Plan, and Figure 3, Grading Plan.) The single-family homes will be clustered in groups of three and four, and the townhomes will be clustered in groups of three. Access is proposed from both Palmetto Avenue and Edgemar Road. The area proposed for the project is a relatively undisturbed, vegetated, bowl-shaped site on the eastern side of the 4000 block of Palmetto Avenue, just south of the Daly City boundary. The project proposal must meet the requirements of the California Environmental Quality Act (CEQA). City review of information submitted as part of the development application (development plan, geotechnical report, traffic report, biological and wetlands surveys) indicates that the project could potentially result in significant adverse environmental effects and that an Environmental Impact Report (EIR) should be prepared.</p>	NOP	01/31/2002
2001121133	<p>United States Gypsum Company (USG) Expansion/Modernization Project (DEIR) Imperial County Planning Department El Centro--Imperial</p> <p>Generally the proposed project consists of construction of new buildings, a doubling in wallboard production by removing one operation production wallboard line and installing a new, state-of-the-art high speed line and increased mining of gypsum from 1.1 million tons per year (mt) to approximately 1.9 mt on land reserves owned and mined by USG. The Proposed Project also consists of expanding existing and planned quarry areas and creating a new overburden storage site. To accommodate the expanded operations water usage will increase. The project will also include modernizing the existing warehouses, storage structures, rail loading facility and upgrading electrical transmission lines, maintaining the 26-mile narrow gauge rail line which runs between the Plaster City plant and the quarry, replacing the 26-mile existing pipeline that runs between Ocotillo and the plant relocating a short portion of the interstate rail that runs through the Plaster City Plant. Accumulated off-specification materials are intended to be recycled.</p>	NOP	01/28/2002
2001121138	<p>Jones Elementary School San Bernardino City Unified School District San Bernardino--San Bernardino</p> <p>The proposed project includes the construction and operation of an elementary school on an approximately 13 acre parcel. The proposed school would provide educational facilities for kindergarten through fifth grade and special education students. The school is designed to serve up to approximately 800-900 students. An estimated 86 teachers, aides, administrators, and other personnel would staff the school.</p>	NOP	01/25/2002

2001122105	Forest Ranch Placer County Planning Department --Placer Planned Residential Development includes 2213 residential units, 18-hole golf course and amenities, office/professional use, equestrian center, and 100-unit recreational vehicle park.	NOP	01/25/2002
2001121134	Maywood New Elementary School No. 5 Los Angeles Unified School District Maywood--Los Angeles The LAUSD proposes to construct the new school to accommodate approximately 888 students (average daily capacity). The 3.15 acre site currently has nine single-family residential units, 23 multi-family residential units, 1 duplex, 7 parking lots on contiguous parcels, 2 light industrial properties, and 1 vacant parcel. As part of the proposed project, existing residential and industrial uses would be relocated. LAUSD proposes to construct a multi-story facility, which will provide 19 general classrooms, 3 special education classrooms, 3 kindergarten classrooms, 1 set aside classroom, lunchroom, kitchen, library, and administrative office, totaling 51,330 square feet. Surface parking would be provided for 59 vehicles. A total of 1.9 acres are dedicated to a play area. School hours will typically be 7:30 a.m. to 4:30 p.m., Monday through Friday, on a year-round basis. Evening meetings and school activities will occur in the evening hours.	Neg	01/25/2002
2001121135	Rezone 01-06, Conditional Use Permit; 01-22 and Resubdivision 01-24 Salinas, City of Salinas--Monterey A rezone from R-H-1.9 (High Density Residential), R-M-3.6 (Medium Density Residential) and CAF (Arterial Frontage) to PS (Public and Semi Public) on 5.30 acres. A conditional use permit to allow a gym, library/media center and storage accessory to a church and school is also proposed. A lot (two to one parcels) consolidation is also proposed.	Neg	01/29/2002
2001121136	Sawyer Pheasant Ranch Merced County --Merced As a result of an enforcement action, a new permit has been required to re-permit an existing pheasant operation of 75,000 birds and supercede a former Conditional Use Permit #3008, and to bring the operation into compliance with current regulations including the Poultry Ordinance of Merced County. 	subterranean parking garage with the rood extending the 36 inches above grade in lieu of the maximum 18 inches in the side yard, and construction of a 6 1/2 foot high wall/railing along the south and east property lines in lieu of the maximum 6-feet. Hours of operation are 8:30 a.m. to 10:00 p.m. Monday through Friday, with 54 parking spaces.		
2001122102	Mustang Airport Use Permit Sacramento County Elk Grove--Sacramento The proposed project consists of a request for a Use Permit for a public use airport in the AG-80 and AG-80(F) zones. The project includes the following two phases: (1) Phase I to widen the existing 40-foot wide runway to 60 feet and allow an estimated 4,800 annual take-off/landings (average 400 per month) and (2) Phase II to widen the 60-foot runway to 75 feet to allow aircraft with a 75-foot maximum wingspan and allow an estimated 7,200 take-off/landings (average 600 per month). Planes will include Type A and B aircraft, some small jets, vintage and military planes, twin engine planes, with aircraft maximum gross weight of 12,500 lbs. The facility will operate 24 hours a day, with landing lights activated by radio frequency.	Neg	01/25/2002
2001122104	EG-01-143 Elk Grove Auto Mall Expansion Elk Grove, City of Elk Grove--Sacramento The applicant proposes to re-designate and rezone the easterly 44.0 acres adjacent to the existing auto mall and State Route 99 to AC-Auto Commercial and to create 11 lots with a tentative subdivision map. The project proposal includes a strip of land with parcel 11 that stretches along the southerly boundary of the existing Auto Mall. This strip of land would allow existing car dealerships to the north to acquire additional land through the boundary line adjustment process. The Elk Grove Saturn and GMC/Pontiac/Buick dealerships have indicated the need for additional land. A General Plan Amendment on 44 acres from (LDR) Low Density Residential 1-12 to (CO) Commercial and Office. A request to rezone 44 acres from (AG-80) Agricultural 80 acres to (AC) Auto Commercial. A Tentative Subdivision Map for 11 parcels ranging in size from 2.10 acres to 8.4 acres in size totaling 44 acres, with a 30.3 acre remainder.	Neg	01/28/2002
2000102009	Petaluma Village Marketplace Petaluma, City of Petaluma--Sonoma The project proposes to expand the existing Petaluma Village Marketplace retail center on to adjoining parcels "C" to the north and "B" to the south. The applicant has proposed 3 possible development options for the two parcels: Option 1 is comprised of 150,000 square feet of retail on Parcel B and 92,000 square feet of retail on Parcel C; Option 2 is comprised of 275,000 square feet of office on Parcel B, as well as a 100-room hotel and 165,000 square feet of office on Parcel C; Option 3 is comprised of 350,000 square feet of office on Parcel B and 165,000 square feet of office on Parcel C. Development of these sites would require a modification to the existing City-approved Petaluma Village Marketplace Planned Community Development Master Plan Guidelines (Resolution 91-136, 1991). 2001128444	Maintenance Desilting of Zone 3A Line D Between the Nimitz Freeway (I-880) and the BART Crossing Fish & Game #3 Hayward--Alameda A maintenance desilting project of Zone 3A, Line D, a tributary to Alameda Creek, between I-880 and the BART crossing, along Industrial Parkway Boulevard, in the City of Hayward, Alameda County. The project entails dredging, to original contours, approximately 7,700 linear feet of constructed, trapezoidal, earthen flood control channel in an urban environment. The project is proposed to reduce potential flooding in the adjacent developed, industrial business area by improving water flow conditions and improving carrying capacity of the channel during high-flow episodes. Issuance of a Streambed Alteration Agreement Number R3-2001-0431 pursuant to Fish and Game Code section 1601.	NOE	
2001128445	Zone 6 Line D (Agua Fria Creek) Gabion Weir Structures Fish & Game #3 Fremont--Alameda The project involves the placement of the three pairs of gabion weirs into the creek bed. The purpose of the gabion weirs is to reduce stream flow velocity to prevent further undercutting of the concrete-lined north bank. The gabion weir structures will be placed in the creek adjacent to the concrete-lined northern bank. The first pair of gabion weirs will be placed approximately 10 feet upstream of the culvert passing beneath Briar Place. The second and third pairs of gabion weirs will be placed approximately 60 feet and 120 feet, respectively, upstream of the first pair of gabion weirs. Gabion weir structures will be 3 feet deep and vary between 1 and 3 feet in height, depending on the placement in the creek. The width of the weirs is dependant upon the width of the channel, which ranges between 6 to 12 feet. Approximately 2 cubic yards of material will be removed from the stream to ensure gabion weirs are installed in a level position in the creek bed. Issuance of a Streambed Alteration Agreement Number R3-2001-0462 pursuant to Fish and Game Code Section 1601.	NOE	
2001128446	Soil Borings Fish & Game #2 --San Joaquin Six soil borings and backfilling.	NOE	
2001128447	Culvert Inlet and Slope Protection Fish & Game #2 --Butte Install extensions and risers on two existing culverts.	NOE	
2001128449	Tonti-Walker Offer to dedicate State Coastal Conservancy Newport Beach--Orange Acceptance of public access easement by the Coastal Conservancy.	NOE
